Milburn House

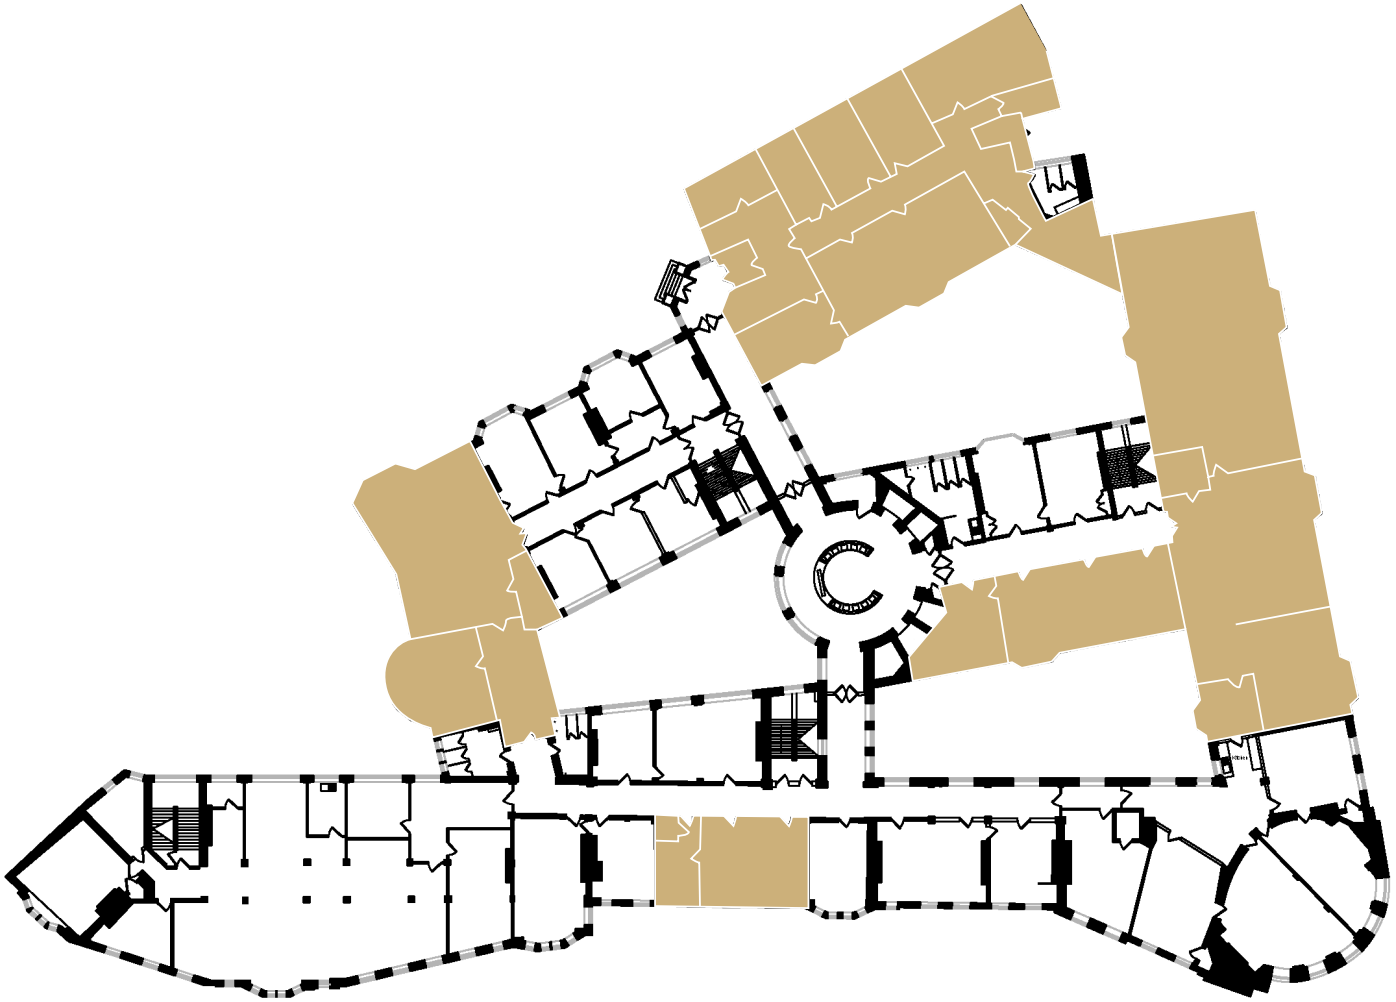
Floor plans

Floor plans

At Milburn House we aim to accommodate all your business needs by configuring any available space to your requirements. This brochure gives an overview of one of the seven floors in Milburn House; demonstrating the unique layout and variety within the building.

To demonstrate this flexibility, three existing suites have been chosen to show the contrast in size and layout that can be tailored to your needs.

Enquire now to find out which suites are available and how the space can work for you.



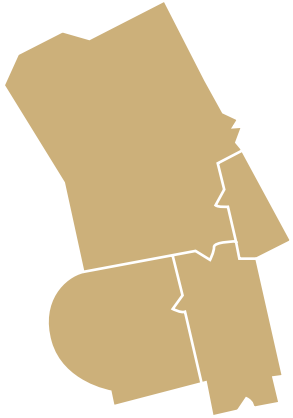
Small unit size

Example shown: 76.5m² (855ft²)

Our small units are designed to make the most of the buildings character and can be tailored to fit firms with as little as one person. Even these smaller areas can be customised to create a personal and unique space for your business. The stylish design features of the building will ensure you have an inspiring space to work for both you and your customers.

Medium unit size

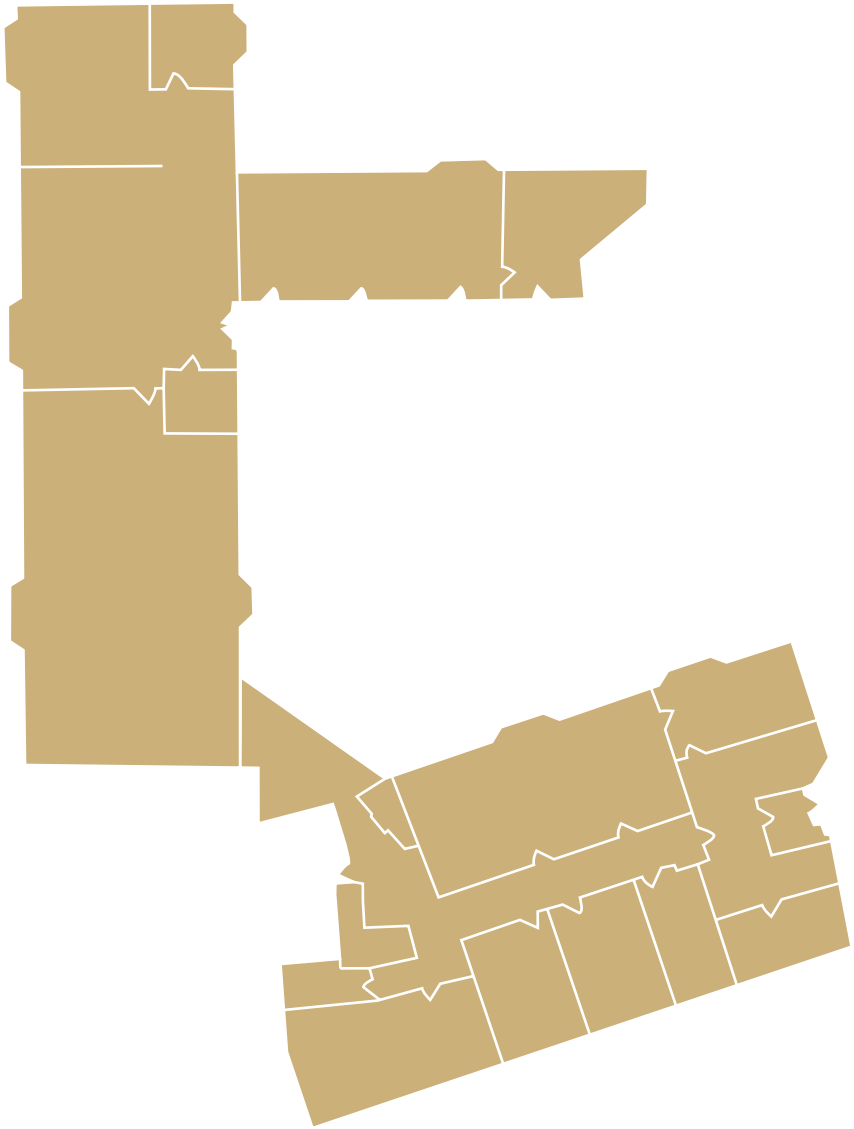
Example shown: 141.5m^2 (1523ft^2)



Our medium suites show off the building's classic features and can be configured to fit many different sizes of firms and a variety of working practices. Some current tenants have divided their space into a number of smaller offices, where others have created stylish open plan spaces.

Large unit size

Example shown: 679m² (7308ft²)



Our large suites can be configured to fit many different sizes of firms and a variety of working practices. For example a functional but dynamic space could be created by combining groups of small offices with open plan areas. We can work with you to create a stunning space for your business.
